Course Description
The goal of the ACLS provider course and ACLS renewal course is to improve outcomes for adult patient of cardiac arrest and other cardiopulmonary emergencies through early recognition and interventions by high-performance teams. AHA BLS for Healthcare Provider is included with all ACLS classes.

The AHA has 15 course objectives for ACLS providers including:
- Applying the basic life support, primary & secondary assessment, for a systematic evaluation of an adult patient.
- Discussing early recognition and management of Acute Coronary syndromes (MI) and Stroke.
- Recognizing and managing bradyarrhythmias and tachyarrhythmias.
- Recognition and management of cardiac arrest and post-cardiac arrest patients.

Prerequisites
Per the AHA, all registrants must be healthcare providers who direct or participate in the resuscitation of patients either in or out of hospital. Providers who have not taken ACLS OR have an expired ACLS card (3 months past the recommend renewal date) OR are providers working in less acute units or low volume locations should ALL take the two (2) day provider ACLS course. All providers taking ACLS for the first time are STRONGLY ENCOURAGED to take a basic ECG course prior to ACLS. Successful completion requires good BLS skills, electrocardiogram (ECG) rhythm interpretation, knowledge of airway management and basic ACLS pharmacology knowledge.

Two-day Provider Course
Day 1 - 8:00 to 4:30; Day 2 - 8:00 to 3:00
