

Welcome to EntireCare Rehab & Sports Medicine!

You are receiving this packet of information as either you or your physician has indicated the need for women's wellness physical therapy. Please find the included forms to be completed in full prior to your first physical therapy visit. If there are forms in which you feel are not pertinent to you, please disregard these.

Instructions for the Daily Voiding Log:

If you are being seen due to issues with incontinence of any kind, please fill out these forms. There should be three separate pages of the same form included. Please track your daily input/output in detail over a 3 day period. Please be detailed about everything that you eat and drink. You have the option to measure the amount that you void (urinate) in either fluid ounces, Small/Medium/Large output, or by counting the seconds it takes you to urinate. When documenting whether urge is present or not, the scale is rated from 1 through 3. If you rate your urge to urinate at 3, this means you have to go now or you will wet yourself. The last column indicates whether or not you were performing an activity and subsequently leaked, please document which activity you were doing.

I look forward to seeing you soon!

Sincerely,

Dixie Callan, PT, DPT EntireCare Rehab & Sports Medicine (928) 773-2125 Northern Arizona Healthcare EntireCare Rehab & Sports Medicine
