Northern Arizona Healthcare Children's Health Center

FEATURED: INSPIRE CLINIC

Inspire clinic providers target multiple barriers and lifestyle factors that increase children's risk for obesity and associated diseases in a safe, nonjudgmental way.

Here are a few of the diagnoses that we treat:

- Obesity and weight issues
- Diabetes
- Fatty Liver Disease
- Abnormal Lipids
- Disordered Eating, and more.

We offer one-on-one appointments to help families develop skills, educate and make sustainable changes to improve patient medical outcomes, laboratory values and quality of life.

Treatment includes personalized:

- Care with our nurse practitioner
- Nutrition counseling and education
- Exercise programs
- Social and Behavioral specialist

If you have a patient you are concerned about, or would like suggestions on first steps, ask any one of us at Inspire. We are happy to help!

Fax: (928) 773- 2286

44th Annual Machine Solutions Run & Walk for Kids

What a Success!

Over 400 runners signed up for our kids dash, 2k, 5k, and 10k. We received incredible support from Machine Solutions, local Flagstaff Running Series, and our Office of Philanthropy.

Not only were we able to raise funds to support Children's Health Center and Inspire programming but also connect with our patients and families as they enjoyed physical activity.

Come join us next year for the Machine Solutions Run & Walk for Kids on Saturday, August 5, 2023!

Thanks to our 2022 Sponsors: Machine Solutions, Northern Arizona Healthcare Children's health Center, Findlay Toyota, Care 1st, Coca Cola, Mountain View Pediatrics, Around the Mountain Pediatric Dentistry, Blue Cross Blue Shield Arizona Health Choice, Northern Arizona University, Hits 106 Radio, Plastic Surgeons of Northern Arizona, Cerner, Lindsey School at Legend Mortgage Inc. and the narbha institute.

Northern Arizona Healthcare Children's Health Center

Physical activity is vital for every child's health and quality of life.

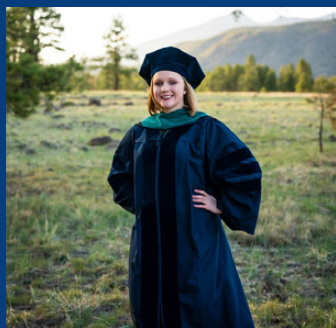

Physical therapists help children of all abilities participate and reach their unique potential.

NATIONAL PHYSICAL THERAPY MONTH

This October we recognize the value of our movement specialists. Our exceptional providers, Jessica Allen and Nicolette Currie, provide therapy sessions to children of all ages for promotion of gross motor skill development, management of acute injuries and chronic conditions, post-operative care, reduction of pain and prevention of injury.

Safe Child Center

Safe Child is committed to protecting child victims of neglect and/or abuse, or witnesses to violent crimes.

Safe Child Clinic provides medical evaluations, behavioral services, family advocacy services and works in partnership with local law enforcement and child abuse agencies.

Audiology Services

Dr. Jennifer Lee has been with the CHC Audiology department for one year and has expanded services into Flagstaff Unified School District.

Our audiology department provides services to patients up to 21 years, performing:

- Newborn hearing screenings
- Diagnostic ABRs
- Hearing Aids
- Bone Anchored hearing devices
- Cochlear Implant mapping
