Featured: Therapy and Ancillary Staff

Who we are:

The Children's Health Center therapy team as a group of specialized providers able to meet the needs of our medically complex patients. Our medical interventions are child-centric and family-focused.

The Children's Health Center feeding therapy team is a group of specialized providers including speech therapy, occupational therapy, registered dietitian and social work. Our trans-disciplinary team is trained in a number of methods including the Sequential Oral Sensory (SOS) approach to feeding. We collaborate to address the oral motor, sensory and nutrition needs of children with feeding difficulties.

What we do best:

Care Coordination. With visiting onsite medical specialists, our therapists and staff are able to meet the needs of our medically complex patients.

Mentor Students. Our providers are back on track in teaching the next generation of medical specialists.

Services we provide:

- Audiology
- Feeding therapy
- Nutrition counseling and education
- Occupational therapy
- Physical therapy
- Speech therapy

**For referrals or questions,
please contact:**

Phone: 928-773-2054

Fax: 928-773-2286

5130 North Highway 89
Flagstaff, AZ 86004

The Children's Health Center has a network of providers who enable patients to receive multiple specialized services.

SAFE CHILD CENTER

Who we are:

Safe Child Center provides medical evaluations, forensic interviews, behavioral health and family advocacy services. Safe Child Center works in partnership with local law enforcement and child protection agencies in providing trauma informed, evidence-based interventions to children and guardians who have experienced abuse.

NAH- INSPIRE

Who we are:

NAH Inspire is an intensive health behavior and lifestyle treatment program specializing in the treatment of obesity and associated diseases including Type 2 diabetes, fatty liver disease, hypertension, hyperlipidemia, obstructive sleep apnea, orthopedic conditions and more.

We empower families to engage in sustainable changes which improve medical conditions and quality of life.

A Season to Celebrate

March

NATIONAL NUTRITION MONTH

Give your body the fuel it needs during every stage of life! Enjoy a variety of foods from all food groups and in various forms.

April

OCCUPATIONAL THERAPY MONTH

This April help celebrate occupational therapy month. Give your occupational therapists a big thank you for helping children and families develop the skills for everyday living.

May

BETTER SPEECH AND HEARING MONTH

The month of May we recognize our speech language therapists in Building a Strong Foundation. We see the hard work you do with families to improve communication disorders.

Let us introduce ...

physical therapist

“

Review of Practice

"My son had a lot of trouble eating when he was born so they referred us here to help him with that. Dr. Gallagher was an absolute delight to be around and educated me about my son's feeding habits as well as my own that I never even had thought about. She was never anything but kind and professional and I highly recommend her to anyone needing a feeding specialist."

- Heather Heslop
