### Child Abuse: Know the Signs

Did you know the holiday season can mark a higher-risk time for children to experience abuse?

Be aware of the following common behaviors victims of child abuse may display:

- Withdrawn, anxious or depressed behavior
- Bullying, teasing or violence towards other young people
- Behavioral changes such as anger, frustration or aggression
- Missing school, curfew or appointments
- Poor mental health, sleep or hygiene

Safe Child Center can assist with Mandatory Reporting trainings and answer further questions at 928-773-2053.

## TOYS FOR TOTS SUCCESS

Children's Health Center had another successful holiday season, handing out toys to patients and their families. Toys for nearly 600 children have been distributed.

## REGISTRATION NOW OPEN

Join us Saturday, Aug. 3:

- Proceeds benefit the Children's Health Center
- Participate at Fort Tuthill in Flagstaff or virtually
- To register scan the code!

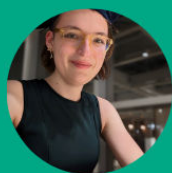

## NEW FACES AT CHILDREN'S HEALTH CENTER (CHC)

### DIANE MARANDOLA

My family moved to Flagstaff to have space for our horses. I've worked with children and adults with special needs my entire career. My role at CHC has me cleaning and organizing therapy rooms and toys, which is very different from what I've done in the past. I feel very happy and thankful to be here with this great team of people.

### DANIELLE SWEETS, OTD, OTR/L

I joined CHC in Sept. this year as an occupational therapist. I have previous experience in early-intervention in rural areas of northern Arizona and love working with kiddos of all ages and their families. In my free time, I enjoy hiking, crocheting, reading, and trying new restaurants. I currently work with children of all ages and their families, supporting them in succeeding in their daily activities – including play!

### YVONNE WATTS, CNA

I have worked for NAH for nearly 40 years. I worked on the pediatric unit of Flagstaff Medical Center for 34 years as a Patient Care Technician (PCT), three years on the Special Care Nursery as a PCT, and now I serve as a Certified Nursing Assistant (CNA) at CHC. I enjoy supporting our team and caring for our patients and their families.
